Professional Summary

Senior .NET Core Developer and Tech Lead with full-stack power (React, .NET) and solid multi-cloud chops across AWS and Azure. Backed by 3 consecutive *Certificates of Excellence* and *Above Performance* ratings every year. Led high-stakes projects like a fully cloud-native SaaS Contact Center (Amazon Connect, Lex, Lambda, etc.) and a real-time campaign engine—architected and delivered from scratch. Frequent speaker at *DevTalks* and *Architect Summits*, bringing sharp technical insights to the table. Serves as an *AP Ambassador* and mentor in the *AP Lab* program, where junior devs get hands-on coding guidance. Known for building scalable systems, leveling up teams, and driving consistent success in demanding environments.

Accomplishments

- Received Certificate of Excellence 3 years in a row (2021, 2022, 2023) at Authority Partners for outstanding performance and impact
- Consistently achieved Above Performance in all annual evaluations

Work Experience

Team Lead & Lead Software Developer (.Net Core, React, Angular) Jan 2020 - Current
Authority Partners

Community Service & Volunteer Work

Taught children aged 8–15 the fundamentals of programming using beginner-friendly tools like Scratch, Blockly, and other visual coding platforms. Helped spark early tech curiosity and guided young minds to build their first games and apps in a fun, engaging environment. Passionate about making coding accessible and inspiring the next generation of developers.

Publications

Co-author, Migration Use Cases with the Migration Manager

IBM Redbooks, SG247906

Contributed to real-world use cases and best practices for IBM Maximo's Migration Manager, helping organizations streamline environment migrations with reliability and efficiency.
